Potential competing interests: No potential competing interests to declare.

1. There should be research question and explain whether the findings in each questions can be used as guidelines or have relations to any studies in the future.
2. Improve the literature review, the details about the issues of education should be added.
3. The methodology is not clear enough and it should be added with some more details to make it more concrete and easier to understand.
4. Provide more information about the questionnaire.
5. The details of the assessment should be clarified.
