**Potential competing interests:** No potential competing interests to declare.

**Decision:** Rejected.

**Advice / Suggestions:** The concept is captivating and was a demand during the pandemic. I request the authors to kindly rewrite the article with proper paraphrasing, grammar checks and correct reference sequencing. Also the authors should take note of the fact that while they are focusing on the covid period, they are not emphasizing on the demand in the post covid era. The ideas mentioned in the above articles come in like facts or general observations and aren't well backed up by prominent scientific literature.
