The manuscript "Investigation and Synthesis of Benzothiazole-Derived Schiff Base Ligand Against Mycobacterium tuberculosis" reports the synthesis and characterization of heterocyclic Schiff base ligands. The paper has an interesting subject but needs to be more carefully written, as many unconvincing statements and grammatical mistakes exist.

1. In Scheme 1, "°C" is not written in the correct format.
2. In addition, some sections would benefit from improved sentence flow and coherence. Please review the text to ensure consistency and grammatical accuracy throughout.
3. Throughout the manuscript, the English language should be improved.
