Potential competing interests: No potential competing interests to declare.

The abstract should briefly summarize the main purpose, methods, results, and conclusions of the study.

The introduction needs to improve the motivation of the research. And the authors should add more context on the importance of studying the impact of entrepreneurial orientation on small-medium sized corn enterprises.

The literature review adds more recently related studies. The authors should provide more context on how entrepreneurial orientation relates to the corn industry specifically.

The methods section should provide more detail on the sample size and the sampling technique used. Additionally, the authors should provide more information on the survey questions.

The results section should provide more detail on the statistical tests used to analyze the data. The authors should provide a more in-depth discussion of the practical implications of their findings for small-medium sized corn enterprises.

The conclusion should provide a brief summary of the study's main findings and their practical implications
