Dear authors

1. The title too long please rephrase
2. Introduction not just based on 2 literature (Ventola, 2015 and Aslam, 2018)
3. Name of bacterial species (*S. aureus* and *E.coli*) should be written full for the first time.
4. Table 1 should be listed the literature
5. The result not just from pubmed
6. The discussion is too general should be more spesific

I suggest a revision for improvement the paper quality
