Potential competing interests: No potential competing interests to declare.

- 1.suggestion to improve the writing of sampling method in abstract
- 2.Rephrase the sentences for the exclusion criteria.
- 3.recommendation to apply advanced statistical tests for data analysis.
4. writing of pvalue, $p < 0.001$
- 5.The data was collected from February to June 2021, with diverse seasons from winter to summer. How will the different seasons affect the study's results?
- 6.suggestion to justify the lower water intake in comparison to WHO recommendations
- 7.In the discussion regarding beverages, compare coffee, juices, and soda to other studies.
- 8.There were significant differences in beverages between age groups and genders, which should be discussed further.
