An interesting and well - written article. The following aspects need to be improved:

The sentence "Most studies have viewed sociosexuality as beingunidimensional, a continuum with two poles: restricted sociosexuality (i.e., preference for sex in long-term and committedrelationships) and unrestricted sociosexuality (i.e., choice for short-term and no-strings-attached sex), following the classicapproach of the Sociosexual Orientation Inventory" needs quoting some sources.

The source (Jackman, 2015) quoted in the text on p.3 is missing in References.

The sentence "Additionally, alternative scales to evaluate the Dark Triad of personality, such as the Mach IV, Narcissistic Personality Inventory, and Self-Reported Psychopathy, should be useful in future studies." requires quoting the sources of these scales.

The following sources from References are missing (not quoted) in text:
