

Review of: "Synthesis of Nickel Nanoparticles Using Ionic Liquid-Based Extract from *Amaranthus viridis* and Their Antibacterial Activity"

Amira A. Boseila¹

¹ Sinai University, Egypt

Potential competing interests: No potential competing interests to declare.

I would like to thank the authors for their work and efforts.

Although, I need some explanations.

1. What was the ionic liquid used in the synthesis process?
2. Section 3.1 didn't discuss the UV spectrum results.
3. Why didn't the authors test the antibacterial effect of *Amaranthus viridis* extract alone?
