Communication/Interviews

National Cancer Institute

Source

National Cancer Institute. *Communication/Interviews*. NCI Thesaurus. Code C139457.

The investigation involved communication/interviews (either interpersonal or through technical means, e.g. phone, e-mail) with persons close to the adverse event, e.g. healthcare professionals (doctors, nurses etc.), the affected patient(s) or other users including, where appropriate, relatives or others engaged in caring for the affected patient.
