Interesting work.

It would be better to mention the time frame considered for the retrospective data collection.

Briefly mention the impact of COVID-19 on the mental health of caregivers.

Das A, et al. A Study to Evaluate Depression and Perceived Stress Among Frontline Indian Doctors Combating the COVID-19 Pandemic. Prim Care Companion CNS Disord. 2020 Oct 8;22(5):20m02716. doi: 10.4088/PCC.20m02716. PMID:33031651.

Specify (how) telemedicine can be incorporated in the future as a routine measure for follow-up.
