Sipjeondaebotang

National Cancer Institute

Source

National Cancer Institute. *Sipjeondaebotang*. NCI Thesaurus. Code C131311.

An orally bioavailable east Asian herbal supplement, with potential gastro- and neuro-protective, immunostimulatory, anti-inflammatory, anti-cancer, anti-cachexic and antioxidant activities. Sipjeondaebotang is comprised of various components, including Angelica root (*Angelicae Gigantis Radix*), the rhizome of *Cnidium officinale* Makino (*Cnidii Rhizoma*), *Radix Paeoniae*, *Rehmannia glutinosa* root (*Rehmanniae Radix Preparata*), Ginseng root (*Ginseng Radix Alba*), *Atractylodes lancea* root (*Atractylodis Rhizoma Alba*), the dried sclerotia of *Poria cocos* (*Poria cocos Sclerotium*), Licorice root (*Glycyrrhizae Radix*), *Astragalus* root (*Astragali Radix*), and the dried bark of *Cinnamomum verum* (*Cinnamomi Cortex*). Upon administration, and although the exact mechanism of action has yet to be fully elucidated, sipjeondaebotang may exert its effect through the various mechanism of actions that may be attributed to the different herbs.
