Potential competing interests: No potential competing interests to declare.

1. This paper is a review of the chemical components and pharmacological activities of *P. marsupium* Roxb, which has some reference value.
2. In the title, it is written that traditional medicine *P. marsupium* is used, but the paper lacks relevant knowledge and traditional customs on the application of *P. marsupium* in traditional Indian medicine.
3. Some distribution areas of the plant have errors, such as Taiwan, the correct writing should be Taiwan of China.
4. Insufficient description of chemical composition in the paper, compound names should be listed after classification according to different types of compounds.
5. The structural formulas provided in this paper are insufficient, and corresponding structural formulas should be provided for different types of compounds, such as alkaloids, triterpenes, saponins, etc.
6. There are too many references to review papers in the references, it is better to find more relevant original research literature. This paper is a review paper, and it is inappropriate to quote too many review papers.
7. Some references have errors and are incomplete, for example References[28][43].
8. In 2018 alone, there were two reviews on *P. marsupium*, and what are the differences and innovations of this paper?
