Potential competing interests: No potential competing interests to declare.

This investigation must be reported as a short communication.

Review the concept, the bioactivity is of extract plants and the sensitivity to these of the bacteria, you use these switched.

Must be include grams which is the concentration of each plant extract in 400 UL

Include the times that assays for each plant extract and the positive controls were used.

The discussion must be improved by considering antibacterial activity previously or not reported.

The pictures of plates are not all clear

Review the scientific names of microorganisms and plants, and the second time genera as abbreviations.
