Thank you for allowing me to revise this manuscript. Please find the attached file of my comments that I hope will be useful. I was honored to review for your respectable journal.

This manuscript deals with the expansion of the experimental antifungal activities through in silico docking study of compounds from Albizia Lebbeck. After reading the manuscript carefully, I have found that the manuscript in its current form is suitable for publication in the journal with a minor revision as follows:

Abstract section:

- Line 6: Edit "ofAlbizia lebbeck" to "of Albizia lebbeck"
- Please add the ATCC number for all organisms.

Materials and Methods section:

- Methodology Detailing: The methods for the isolation, extraction, and purification of the compounds are not described. Please add some details about this.

Results and Discussion section:

- The determination of the MIC of the compounds is not found in the materials and methods section.
