Review of: "Creating a Child-Centered Playroom for Marshallese Children"

Wallace Wai Hung Tsang¹

1. Hong Kong Shue Yan University, Hong Kong, China

The authors need to elaborate more on the suggestions gathered from the counsellors, teachers, and the children, instead of just showing the results of the playroom.

Also, the authors need to elaborate on the ways in which the setup of the room reflects the cultural issues of this group of people.
