Environmental change mode of delivery

Behaviour Change Intervention Ontology (BCIO)

Definition: Mode of delivery that involves changing the physical shape, size, structure or appearance of objects in the environment of the intervention recipient.

Comment: This does not include use of textual or pictorial information. It includes lighting, speed humps, use of music, shape and size of containers of consumables.

Curator note: This is a very heterogeneous class that will need to be further subdivided.

This definition was imported from the Behaviour Change Intervention Ontology (see <https://bciosearch.org/>). Comments and suggestions for improvements are welcome using the Qeios review system.

Definitions imported from the Behaviour Change Intervention Ontology (BCIO) are what are known as 'ontological definitions'. See this article in Qeios for an explanation <https://www.qeios.com/read/YGIF9B>.

Ontological definitions can sometimes be hard to read. In those cases we also include an informal definition.

Definitions also often require elaboration to make it clear how they should be used and what they include. In those cases we include a comment.

Also, definitions sometimes require an explanation as to how they came about to help users understand how they relate to alternative definitions. In those cases we include a curator note.
