Potential competing interests: No potential competing interests to declare.

1. The abstract does not explain this literature study well. What is the effect of copper nanoparticles on viral skin infections?
2. The year range of literature in the database has not been explained in the method.
3. The importance of this study being conducted has not been explained well in the introduction.
4. How effective copper nanoparticles are is unclear; is there no absolute value in the literature? What about the cytotoxicity of these nanoparticles to human cells? Does it have any effect? It has not been explained clearly by the author.
