Potential competing interests: No potential competing interests to declare.

1. In Abstract mention that reduce the impact of environment. can you please what type of impact that reduced.
2. Can you add the sample picture of plant oil extracted, palm oil waste and collected items used for the investigation.
3. Explain the process in flow diagram.
4. Can you compare with normal mushroom and investigated mushrooms in the form of size, time, etc.,
5. Am highly recommended the article to publish.
