Dear Authors:

It was a great pleasure to read your paper, and congratulations on your work.

The focus of this article is an important thematic of investigation: the preservation of architectural heritage and its relationship with tourism, with the particularity of presenting a case study: the ancient houses in Ben Tre City.

Here are some suggestions to make your work even more interesting: insert a map of the location of the study area (with the city, the region, and the country); insert a map with the location of the ancient houses in Ben Tre City; to deepen the international (state of the art) reflection on architectural heritage, based on authors and institutions of reference, and also on the relevance of tourism, in this case heritage tourism or cultural tourism, for the preservation, enhancement, and enjoyment of this heritage; with your knowledge of the subject and the territory of study, it will be easy to deepen the discussion of the work; in the conclusion, explain the limitations of the study and clues for future investigations.

I renew my thanks for the opportunity to read your work and hope that you can continue to research and publish works like this.

Best regards,
