Dear Editorial Team of Qeios,

I have had the honor of reviewing the article titled " Using the Socio-ecological Model to Examine Prevalence and Demographic Correlates of Alcoholic Beverage Consumption among Adolescents in Public Schools in Uganda".

After a thorough review, I am pleased to report that the article is in exceptionally good condition, and I believe it is ready for publication without the need for additional revisions. Below, I detail the positive aspects I observed:

General Article Quality:

The article exhibits exceptional quality in all aspects. The structure, writing, and presentation are of a high standard, facilitating understanding and appreciation of the content.

Content and Structure:

The detailed description of the content is clear and concise. The article's structure follows a logical and coherent approach.

Currency of References:

The references cited in the article are current and relevant to support the research. The authors have done commendable work in including sources that enrich and support their findings. The bibliography demonstrates a profound understanding of the relevant academic context.

Content Description:

The detailed description of all content is appropriate and clear. The researchers have effectively conveyed the objectives, methodology, results, and conclusions of their study, making it easily understandable for readers.

Reviewer's Contribution:

After a comprehensive review, I believe the article is ready for publication without the need for additional revisions. My

contribution focuses on confirming that the research is well-grounded and holds significant value for the academic community.

I appreciate the opportunity to contribute to the review process and remain available for any further inquiries.

Sincerely,
