Intergroup Rhabdomyosarcoma Clinical Grouping System

National Cancer Institute

Source

National Cancer Institute. *Intergroup Rhabdomyosarcoma Clinical Grouping System*. NCI Thesaurus. Code C148010.

Staging and grouping for rhabdomyosarcoma that groups patients into low, intermediate, or high clinical risk groups based on: histologic type, tumor site, tumor size, and pathologic TNM. Note: this is not the TNM system described in AJCC.
