Review comment

- Authors need to add year to in-text reference with names because some have two different years.

Example: Mohankumar et al., in the main reference there are:

Mohankumar, S. K., O'Shea, T., & McFarlane, J. R. (2012). Insulinotrophic and insulin-like effects of a high molecular weight aqueous extract of Pterocarpus marsupium Roxb. hardwood. *Journal of Ethnopharmacology*, 141(1), 72-79.

Mohankumar, S. K., & McFarlane, J. R. (2016). Mechanism of action of a bioassay-guided aqueous fraction of Pterocarpus marsupium Roxb hardwood on glucose-dependent insulin secretion. *International Journal of Phytomedicine*, 8(1), 1-6

- Jahromi and Ray stated in-text but authors are more than two. Thus

Jahromi, M. F., Ray, A. B., & Chansouria, J. P. N. (1993). Antihyperlipidemic effect of flavonoids from Pterocarpus marsupium. *Journal of Natural Products*, 56(7), 989-994

- "Mohire performed a comparative study between the aqueous extract of the heartwood"

According to main reference is not just an author

Mohire, N. C., Salunkhe, V. R., Bhise, S. B., & Yadav, A. V. (2007). Cardiotonic activity of aqueous extract of heartwood of Pterocarpus marsupium. *Indian Journal of Experimental Biology*, 45, 532-537.

- Shrestha et al is in-text but spelt differently in main reference

Shresta, S., Bhattarai, B. R., Adhikari, B., Rayamajhee, B., Poudel, P., Khanal, S., & Parajuli, N. (2021). Evaluation of phytochemical, antioxidant and antibacterial activities of selected medicinal plants. *Nepal Journal of Biotechnology*, 9(1), 50-62.

Authors should ensure that all scientific names are italicized.

Authors should spell out words before abbreviation example SGOT, SGPT
