Potential competing interests: No potential competing interests to declare.

It is my pleasure to review this interesting manuscript, which covers an important topic. I have some concerns detailed below which I hope can help improve the paper in the future, such as:

1. Introduction

- Add citations for these sentences:
- Some studies ??? have explored the challenges of communication in face-to-face teams.
- limited research ??? has explored the impact of cultural diversity on communication processes in virtual project teams.

2. Review of the Literature

Add recent studies.

3. Methodology

Sampling:

- You can mention that you have used judgmental sampling because it's more adapted to your research.
- You need to add the characteristics of your sample.
- Add the time period of your research.

4. Results

- Add to the results a discussion (augmented with references).
- The paper can indicate limitations and can be connected to future research.
