Potential competing interests: No potential competing interests to declare.

Abstract : The authors must explain the research method they used clearly.

Introduction : Explore more previous research to explain the gap of the research and the reason why your research is very emerge to do, explore more explanation regarding your research question.

Empirical Review : Expand more this section to build your hypothesis.

Conceptual Framework : There is no supporting theory yet to build your conceptual framework, kindly explore more previous research in this section.

Results : The output of the results are very limited. Additional outputs need to be reported, kindly explore your output of processed data. (The processed data phase can be explored).

Conclusion : Explain your limitation, main finding, positioning of the research among previous research.
