Thank you very much for your manuscript.

1-) You can abbreviate the title of the study. It seems like an unusual title.

2-) You can also mention that air pollution can lead to increased levels of psychological symptoms (Uludag, 2024).

Leveraging Machine Learning to Investigate the Link between Exposure to Major Air Pollutants and the Escalation of Suicide Rates in OECD Countries

3-) You can add specific keywords related to your study.

4-) You can say "et al." instead of mentioning all authors.

In a study done by D. W. Dockery, C. A. Pope 3rd, X. Xu, J. D. Spengler, J. H. Ware, M. E. Fay, B. G. Ferris Jr, F. E. Speizer,

5-) You can add more references to support your study.

6-) Also, you can use references from the last 5 years.

7-) You should clearly explain the sentence:

The countries like India can have a strategy of lockdown for controlling pollution for the benefit of public health.
