The topic is exciting and timely. However, these are the areas for improvement:

1. Suggest adding more real-world-based content in the Discussions section.
2. The methodological part needs to be improved for more clarity. Also, needs to discuss why these methods over others.

What is the sample size? Please justify.

3. The current conclusion reads generally and needs to include the highlights of the paper.
4. Suggest adding sections for both Discussion and Conclusion to enhance the structure.
