The Research Paper needs the following revisions and is Subject for re-review, and after re-review, the final decision for the paper will be done:

1. Make the abstract better- Start with background, then add the scope and problem definition. Then clearly state what is the aim/objective of the paper and what novelty is there in the proposed technique and in the last lines, highlight in what %age and in what parameters the proposed methodology is better as compared to existing techniques and what is the overall analysis.
2. Add Objectives of the paper at end of Introduction and then add organization of the paper
3. Add more details of the proposed work in terms of working, architecture and other technical details.
4. Add Analysis aspect to the paper
5. Add soem real time implementation of the paper
6. Add future scope to the paper.
