The paper exhibits an engaging and well-crafted narrative.

Abstract: Incorporate "HKS" in brackets alongside Human Kinetics Departments.

Regarding the Theory of Planned Behaviour (TPB), the references to Karim, Rusli, Diak, Idris (2013), and Zhang, Huang, Yin, Gong, Tchounwou (2015) require refinement.

"The instrument was created by the researchers and validated by experts in the Department of Health, Safety, and Environmental Education, Faculty of Education, University of Benin." Clarify the number of experts involved.

Avoid using the phrase "The table above"; instead, explicitly reference the specific table. Moreover, both tables and figures should be introduced by descriptive text preceding them.

To enhance the discussion, consider incorporating more references.

In the conclusion, specify the location where the study was conducted. Avoid generalizing the results to all "university environments."
