Potential competing interests: No potential competing interests to declare.

This study is interesting, but some improvements are needed.

1. The INTRODUCTION needs to strengthen the application scene of this study.
2. Is Figure 1 necessary? If yes, please increase the resolution.
3. The analysis and discussion related to practical implications need to be strengthened.
4. Please pay attention to the writing, for example, the full write of E-B studies is not provided in the main text.
