

Review of: "Flourishing in Salsa Dance: A Qualitative Investigation of Aesthetic, Artistic, and Creative Contributions"

Olumuyiwa A. Akande¹

¹ University of Nigeria

Potential competing interests: No potential competing interests to declare.

As a dance expert, and qualitative researcher, the project was well executed with replicable steps demonstrated in the method of research the researchers employed. The results were also coherently presented. However, the aesthetics content as reflected in the title has not been thoroughly dealt with in the body of the work. This has to do with the beauty of the dance which enchants, appeals, and probably has some therapeutic components. Future research by these erudite scholars would need to assess the contributions of dance aesthetics to human wellbeing. The references too have to be upgraded with some Community dance from other climes like Africa. You may be interested in checking Olumuyiwa A. Akande's work on Hausa Koroso Dance from Nigeria on Google Scholar.
