Glen of Imaal Terrier

National Cancer Institute

Source

National Cancer Institute. *Glen of Imaal Terrier*. NCI Thesaurus. Code C54051.

The Glen of Imaal Terrier is a sturdy dog that resembles the Welsh Corgi - a short legged dog that is low to the ground with a long body. It has a harsh, shaggy, medium-length coat that comes in many colors including red, blue, brindle, or wheaten. The ears are half-pricked or half-rose shaped. Height: 14 inches (35.5-36.5 cm.) Weight: 34-36 pounds (15.5-16.5 kg.)
