Botanical Extract DCB-BO1301

National Cancer Institute

Source

National Cancer Institute. *Botanical Extract DCB-BO1301*. NCI Thesaurus. Code C140554.

A proprietary botanical, galactolipid-enriched extract derived from the edible plant *Crassocephalum crepidioides* (Zhaohe Cao), with potential anti-inflammatory and antineoplastic activities. Upon oral administration, DCB-BO1301 may inhibit the growth of certain types of tumor cells, although the exact mechanism of action has yet to be fully elucidated.
