This is an interesting research, but for it to be more appealing to the global readers, i recommend the following adjustments:

1. General grammar check as well as sentence reconstructions
2. Fig 2 is unnecessary
3. Prepare a better location map
4. Fig. 7 needs better caption
5. Clipped_Dem should be adjusted, no need for underscore and in the rest of the results too
6. Legends should be better defined
7. What are the roles of Figs 8 and 9
8. Table 1 and 2 should be in supplementary

Best.
