

# Review of: "Analyzing the Effects of Organic Amendments on Soil Erosion Dynamics: A Comprehensive Study on Application Methods and Timing"

Theophilus Olufemi Isimikalu

Potential competing interests: No potential competing interests to declare.

Soil texture is a fairly static physical property of soils. Is it possible for soil texture to be altered in 180 days due to the application of amendments? This is improbable as the discussion of your results suggests.

The entire write-up requires proper paragraphing and checks for proper grammar.

Table 2 can be better structured.

Tables 2 and 3: What post hoc test was used to separate treatment means? LSD as stated in the methodology?

Tables 2 to 4: Time (day) should be Time (days)

The presentation of results and discussion is cumbersome. This can be better structured for better flow and understanding.
