Fellowship Programs, DCEG

National Cancer Institute

Source

National Cancer Institute. *Fellowship Programs, DCEG*. NCI Thesaurus. Code C18792.

The National Cancer Institute (NCI) offers training fellowships to individuals who are interested in careers in cancer epidemiology, biostatistics, or genetics. DCEG supports two programs: One provides pre- and postdoctoral training in cancer epidemiology and biostatistics, and the other provides postdoctoral interdisciplinary training in cancer genetics and epidemiology. (from DCEG fellowship programs)
