Title: Urban Agroecosystems in Dynamic Yamuna River Sandbars in Delhi, Capital City of India

Thank you very much for sharing the article for review. My comments are given below-

1. Add background of this study in the first para of the abstract
2. Focus on methods, results, and conclusion in the abstract
3. Discuss more lacking information that you solved in the introduction
4. Add a table regarding the research questionnaire in the method section
5. Explain each figure in the legends
6. Remove shading from the tables
7. Check the y- and X-axis titles of fig. 9. Only "Kg" seems not good
8. Separate the Discussion and Conclusion sections
9. Make your article short and specific. Focus on your specific aims and add these related figures. Any extra figures should be submitted as a supplementary file.
10. Add an abbreviation section after the conclusion
11. Add a Declaration section including Funding, Conflict of Interest, Data Availability, etc.
