Potential competing interests: No potential competing interests to declare.

The title looks attractive, with important implications for world peace, well-being, and development, considering the current global economic and political crisis.

It seems the author attempted a review. There will be a need to specify the kind of review, the methodology of the search and review, and the thematic approaches to the results section. The justification for this review will be essential.

Approaches to writing a review can follow PRISMA guidelines:http://prisma-statement.org/documents/PRISMA_2020_checklist.pdf

We hope to have a more robust review paper after this review.
