Introduction

The paper's objective needs more clarifications to suit the reader to understand the main idea with complexities. The introduction has a few grammatical mistakes and minor conflicting grammatical concepts that the article focuses on. The introduction contains the following; what is the problem, why it is essential, why are you searching for it, what do you expect your study to shed light on, etc.

Last, Discuss all variables specified adequately in this section

In addition to the earlier review, I found the following material very rich comprehensive, and up-to-date. I believe they should be cited to enhance the quality of the review of the submitted article and serve as a guide to the points of corrections raised
