

Review of: "The Efficacy of Copper Nanoparticles in Treating Viral Skin Infections: A Systematic Review and Meta-Analysis"

Doss Doss

Potential competing interests: No potential competing interests to declare.

The introduction is not enough.

There are no figures and tables in the manuscript.

The author should add the antiviral mechanism of copper nanoparticles to the manuscript.

The synthesis of copper nanoparticles is missing.

The present form of content is not enough for publication.

The author should explain the unique features of copper nanoparticles in the introduction part.
