The manuscript (MS) titled "Review of: Assessing the Challenges and Opportunities of Micro and Small Scale Enterprises (MSEs) in Hawassa City Administration of Sidama Region, Ethiopia" has been written well, and the authors have majorly focused on the administrative issues related to micro and small-scale enterprises. The MS gives efficient insights on the topic and provides a direction towards the implementation of this concept in developing countries. Therefore, I recommend publishing the MS with minor revisions.

1. The whole MS has to be checked for grammatical errors.
2. The introduction section needs more focus on global statistics related to the problem statement.
