Potential competing interests: No potential competing interests to declare.

1. The work highlights the role of Semaglutide in diabetic and cancer prevention. Therefore, it can be rephrased as "Semaglutide, a GLP-1 Agonist like Ozempic, and Its Role in Diabetic and Cancer Prevention."
2. List some of the available GLP-1 agonists, their possible side effects, and the role they play in diabetes and cancer prevention.
3. Give a brief background on Semaglutide and its relationship with Ozempic.
4. List the different doses of Semaglutide in recent use and the pros and cons of each dose range.
5. You need to briefly explain Exenatide before writing about its role as a GLP-1 agonist.
