Sola Scriptura to Improve the Quality of Christian Students in Thinking Characteristics

Introduction

1. The following two sentences (in yellow): 1. "The principle of Sola Scriptura breaks the tyranny of a "corrupt" ecclesiastical hierarchy because the church places itself higher than the Word of God" and 2. "In contrast, the Roman Catholic church believes only in the inerrant rules of the church and its traditions. This mistake is" offensive to other beliefs (the Roman Catholic church), intolerant.
2. There must be citations, especially those made by Christians (especially from indexed journals).
3. There must be a citation, especially those carried out by Christian students. Explore the results of previous research (especially those that have been published in indexed journals).
4. State the respondent... On Christian students? Also, explain where is the novelty of your research.

Research Methods

1. Since the title of this study is about the character of Christian "students," try to describe who and how many of the respondents are. When is the research? How is the research instrument? How is the data collection? How to analyze it?
2. Describe the criteria for trusted books, internet articles, and credible authors so that they can be used as references as a source of character for Christians.

The Meaning of the Characters

Definition of Sola Scriptura

The Importance of Thinking in Christian Character

This paper is more appropriate to be kept in theoretical studies or introductions. But it must contain citations from indexed journals.

The Role of Sola Scriptura in Improving the Quality of Thinking of Christian Students in Character

It is better first to explain how Christian students feel about Sola Scriptura. Do they have it as the only referral? If not, what is the reason? It must contain citations from credible sources. After that, have an in-depth discussion by citing relevant previous research results.

Conclusions

Conclusions must be based on credible data and the results of in-depth discussions.

Refereces

Get lots of references from indexed journals.
