Potential competing interests: No potential competing interests to declare.

Please better detail the following topics for your article quality improvement: 1- Experiment automation. Is there any automation involved? If yes, please detail it in your methodology. 2- Greenhouse environment control. Was there any temperature/humidity control? If yes, please detail it. 3- Statistics. You need to show your sampling theory and process through a scheme/figure and also show your variance/standard deviation numbers; otherwise, people cannot evaluate your results.
