Potential competing interests: No potential competing interests to declare.

- 1) Sections are not numbered
- 2) What is the tokenization unit of the text? According to the example, I think this unit is a word. It is necessary to specify the tokenization unit (Tokenization: First, the text will be divided into separate tokens. In this case, we can split it into the following tokens).
- 3) The author should add work on spelling correction for the Arabic language:
