

Review of: "Using the Socio-ecological Model to Explain the Findings of Prevalence and Demographic Correlates of Alcoholic Beverage Consumption among Adolescents in Public Schools in Uganda"

Octavian Barna

Potential competing interests: No potential competing interests to declare.

The article addresses a current problem among young people all over the world, namely the consumption of alcoholic beverages. From a scientific point of view, the approach is appropriate with a sufficient number of subjects and the corresponding statistical analysis. Bibliographic references are up-to-date and in sufficient number.
