Potential competing interests: No potential competing interests to declare.

1. The abstract should be more concise, write your outcome and novelty of the work
2. The contribution should be highlighted in the last paragraph of introduction
3. There are some typos need to fix, revise the article grammatically
4. Add more recent works such as [Energy-balanced neuro-fuzzy dynamic clustering scheme for green & sustainable IoT based smart cities](#), [Computational Intelligence Inspired Adaptive Opportunistic Clustering Approach for Industrial IoT Networks](#), [A novel routing protocol based on grey wolf optimization and Q learning for wireless body area network](#)
5. The method section need to elaborate with more mathematical foundations
6. Results need some improvements, compare the work with SOTA methods
7. Fix the structural issues.
8. Equations need to elaborate.
