

Review of: "Food and Feeding of Atlantic Mudskipper *Periophthalmus Barbarus* in Ogbo-Okolo Mangrove Forest of Santa Barbara River, Bayelsa State Niger Delta, Nigeria"

Houda Djait

Potential competing interests: No potential competing interests to declare.

1-introduction: You can add a paragraph where you cite the diet of *Periophthalmus barbarus* in the world

2- correct keywords

3- The methodology should be developed using the Costello method (1990) modified by Amsturden (1996). This approach will allow understanding the feeding strategy, identifying rare prey, and determining significant prey items. The prominence value (PV) (Hickley et al., 1994) should also be employed to ascertain the composition of the species' food bolus.
