Havanese

National Cancer Institute

Source

National Cancer Institute. *Havanese*. NCI Thesaurus. Code C53934.

The Havanese gives a rugged impression of a little dog; it is sturdy and not fragile. It is a double-coated breed with soft hair, both on outer and undercoat. The profuse coat varies from wavy to curly and comes in any color, including cream, gold, white, silver, blue, and black. Height: 8-11 inches (20-28 cm.) Weight: 7-13 pounds (3-6 kg.)
