CM0 (i+) Stage Finding

National Cancer Institute

Source

National Cancer Institute. *CM0 (i+) Stage Finding*. NCI Thesaurus. Code C95956.

A distant metastasis TNM finding indicating that there is no evidence of distant metastasis clinically or by radiologic studies, but there are small numbers of cells detected by special studies in the blood and bone marrow, or there is tiny metastasis (no larger than 0.2 mm) detected in nonregional lymph nodes.
