# French Bulldog

National Cancer Institute

## Source

National Cancer Institute. *French Bulldog*. NCI Thesaurus. Code C53849.

The French Bulldog is a sturdy bulldog with large, erect, rounded, bat ears, a flat muzzle and a pug nose. The square flat head is not as massive as the English Bulldog's. The forehead is rounded. The dog is pear-shaped, with the shoulders wider than the tail area. The short coat comes in brindle, fawn, white and combinations of brindle or fawn with white. Height: 12 inches (30cm.) There are two weight classes of French Bulldog: 19-22 pounds (9-10kg.) and 22-28 pounds (10-13kg.)
